Top 2% Globally on TryHackMe | Completed 100+ challenges on PicoCTF

First Prize – IntrusionX CTF (Offline) | Third Prize – UTHRA CTF (Offline)

PERSONAL SUMMARY

Motivated and curious student with a strong passion for cybersecurity, AI, and software development. Enjoys building practical projects, learning new technologies, and helping others through tutoring and teamwork. Known for being adaptable, quick to learn, and always eager to take on new challenges and improve technical skills.

EDUCATION

B.E. Cybersecurity – Sree Sakthi Engineering College, Karamadai CGPA: 8.4 (2nd Year)	2024 – 2028
Higher Secondary Education – Carmel Matric Hr. Sec. School, Erode Percentage: 73.8%	March 2024
Secondary School – Carmel Matric Hr. Sec. School, Erode Percentage: 77.2%	March 2022

PROJECTS

Home Cybersecurity Lab

- Simulated real-world cyberattacks in a multi-VM lab, performing reconnaissance, exploitation, and privilege escalation using industry-standard tools..

Java Proxy Server

- Designed a Java proxy server to inspect network traffic and block restricted websites using custom filtering rules.

IoT Smart Monitoring System (ESP32)

- Designed a smart IoT monitoring system using ESP32, enabling real-time hazard detection and remote dashboard access.

SKILLS

Cybersecurity: Privilege Escalation, Vulnerability Assessment, Malware Analysis, Phishing Analysis, OWASP Top 10, Reverse Engineering

Tools & Platforms: Wireshark, Metasploit, Ghidra, IDA, GDB, Gobuster, Nmap, Burp Suite, Docker, Git, VirtualBox

Operating Systems: Linux (Kali), Windows

Networking: TCP/IP, DNS, HTTP/HTTPS, OSI Model, Proxies, Ports & Protocols, Firewall Concepts, SSH Configuration

Programming: Python, Bash, C, Java, Assembly (Fundamentals)

Soft Skills: Leadership, Communication, Teamwork, Problem Solving, Research, Mentorship, Time Management

CERTIFICATIONS

TryHackMe – Pre Security	2026
TryHackMe – Cyber Security 101	2026
TryHackMe – Advent of Cyber 2025	2025
CISCO – Introduction to Cybersecurity	2025
NPTEL – Ethical Hacking	2025
